

2008

# Vermont Population Estimates

Jim Douglas, Governor  
State of Vermont

Robert Hofmann, Secretary  
Agency of Human Services

Wendy Davis, MD, Commissioner  
Department of Health

October, 2009

This report was produced utilizing 2007 and 2008 data from the US Bureau of the Census and the National Center for Health Statistics.

Under the direction of the Vermont Department of Health

Peggy Brozicevic ..... Public Health Statistics Chief

Michael Nyland-Funke ..... Public Health Analyst

Center for Public Health Statistics

P.O. Box 70  
Burlington, Vermont 05402  
(802) 863-7300

## Table of Contents

Summary .....	1
Overview of Race and Ethnicity Data .....	45

## List of Figures

1. Map of Vermont towns and county boundaries .....	2
2. Population of Vermont towns, 2008 .....	3
3. Population of Vermont towns, percent population change 2000-2008 .....	4
4. Population of Vermont counties, 2008 .....	5
5. Population age-sex distribution of Vermont, 2000 and 2008 .....	6
6. Population race and ethnicity distribution of Vermont, 2008 .....	45

## List of Tables

1. Vermont population by county, selected years .....	7
2. Population estimates of Vermont counties for 2008 and components of change from April 1, 2000 to July 1, 2008 .....	8
3. Population of Vermont towns, 2000 Census and 2007-2008 estimates .....	9
4. Census and estimated population of Vermont towns ranked in descending order .....	22
5. Population of Vermont by single year of age, sex 2000 Census and 2008 estimates .....	29
6. Age-sex distributions of Vermont counties, 2000 Census and 2007-2008 estimates .....	30
7. Population of Vermont's Counties by Race and Ethnicity, 2000, 2008 estimates .....	46
8. Population of Vermont by Age, Race and Ethnicity, 2000, 2008 estimates .....	47

## SUMMARY

This report contains Vermont census counts of population for 2000, and population estimates for 2007 and 2008. Population totals for counties and towns are presented (Tables 2 and 3, Figures 2 and 4). A listing of towns ranked in order of decreasing 2008 population is provided (Table 4). In addition, the age-sex distributions for the state and counties are given (Tables 5,6). Historical population data for Vermont counties are provided in Table 1. Housing unit estimates are no longer available in this report.

The population of Vermont was estimated to be 621,270 on July 1, 2008 (Table 1), marginally higher than the 2007 estimate of 621,254, and up from the census count of 608,827 on April 1, 2000. This is an increase of 12,443 people, or 2.0 percent from the census. Net migration in Vermont from 2000 to 2008 indicates an overall in-migration of 790 people (Table 2) since the Census, but the net migration has been negative since 2006. Net migration is calculated as the difference between population change and natural increase (births minus deaths). The highest growth rates occurred in Grand Isle, Lamoille and Franklin Counties (Table 2, Figure 3). In Grand Isle County the large percentage increase is in part a reflection of the small population. The four southernmost counties all show a small decline in population since 2000.

Of the 255 towns and cities in Vermont, nine had total 2008 populations that exceeded 10,000 (Tables 3 and 4, Figure 2). These nine places accounted for 25.4 percent of the state's population. Ninety-one towns had resident populations less than 1,000 people, and three unorganized places in Essex County had no permanent residents (Avery's Gore, Lewis and Warner's Grant). Due to limitations in the data available for many towns, estimates may vary substantially from year to year. Observing the population trend for several years gives sense of the true population picture.

The fastest growing segment of the Vermont population is the 55-64 year old age group (Figure 5, Table 5). There has been a decline since the Census in the under 18 population, as well as in the 30-44 age group.

Population estimates by race and ethnicity for Vermont for 2008 are included in tables 7 and 8. These estimates are for the race and ethnicity categories used prior to the 2000 Census. Estimates utilizing the Census 2000 race and ethnicity categories are available from the US Census Bureau at [www.census.gov](http://www.census.gov).

The estimates published here were produced for the National Center for Health Statistics (NCHS) by the United States Census Bureau with minor exceptions for one town and two unorganized places. The Census Bureau estimated that one person lived in each of Lewis and Avery's Gore in Essex County. These places have previously been uninhabited, and VDH has received no compelling evidence to suggest that this has changed, so VDH continues to estimate zero population in these places and added those people to the largest neighboring town, Brighton. Information about the Census Bureau's estimate methodology is available at [www.census.gov](http://www.census.gov).

Population figures are Census counts for those years when the census was taken, are mid-year estimates for all other years prior to 2000, are estimates as of April 1 for 2001-2002, and are again mid-year estimates for 2003-2008.

**Table 2.** Population estimates of Vermont counties for 2008, and components of change from April 1, 2000 to July 1, 2008.

## Race and Ethnicity Data

The following tables (7 and 8) are the race and ethnicity estimates produced for the National Center for Health Statistics (NCHS) by the US Census Bureau. Census 2000 introduced a more detailed race and ethnicity categorization scheme than had been used previously, and subsequent estimates produced by the Census Bureau have used the new categories. NCHS contracted with the Census Bureau to produce estimates which bridge the new race and ethnicity categories back to the categories in use prior to Census 2000. Estimates using the Census 2000 race and ethnicity categories are available from the US Census Bureau at [www.census.gov](http://www.census.gov).

While racial and ethnic minorities are only 4.0 % of the Vermont population (Figure 6) , in general, these populations are growing at a much faster rate than the non-Hispanic white population. The non-white population of Vermont was 17,049 in 2008, up 32.6% since July 2000. The number of persons of Hispanic origin was 8,588 in 2008, up 54.1% from July 2000. The white, non-Hispanic population increased less than one percent from 2000-2008 to 596,207. The American Indian, Eskimo and Aleut population was the only race category showing a decline since 2000. The Asian and Pacific Islander population increased 30.5% since July 2000, and the Black population of Vermont has increased 64.1% in that time. Hispanic origin is an ethnic category, so persons of Hispanic origin are included in each race category. The exploded view in Figure 6 shows only the white Hispanic population, there are a small number of Hispanic people included in each of the three non-white race categories as well.

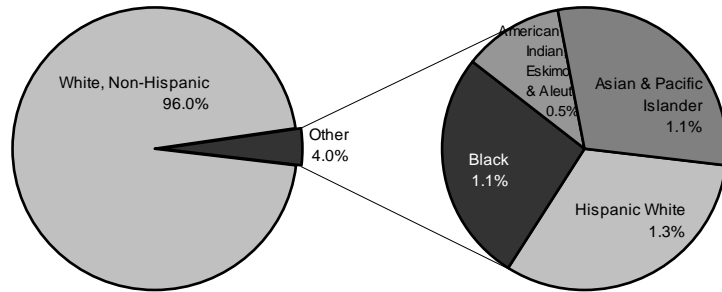

Figure 6. 2008 Distribution of Vermont Population by Race and Ethnicity

The racial and ethnic minority populations in Vermont are heavily concentrated in Chittenden County. While Chittenden County had 24.6% of the total population of Vermont, 45.9% of the non-white population and 31.8% of the Hispanic population resides in Chittenden County. The lone exception being the American Indian, Eskimo and Aleut population, where Franklin County has the largest population.

It should be noted that the year 2000 populations presented in tables 7 and 8 are estimates as of July 1, 2000 and not the April 1 Census counts. Information regarding the methodology used in producing the bridged race and ethnicity estimates is available from the NCHS at [http://www.cdc.gov/nchs/nvss/bridged\\_race.htm](http://www.cdc.gov/nchs/nvss/bridged_race.htm).
